Summary	Front-end Developer focused on creating great user interfaces; developing web applications using React and Next.js			
Profiles	<div><div></div>Vanckoe</div>			
Stack	git, next, react, html, css, js, tailwind, radix, headlessUI, clsx, zsa, vercel, astro, web api			
Experience	<div>Jool kz</div> <div>Frontend developer</div> <div><div></div>https://kazbus.vercel.app/start</div> <div>JoooolKz is a <b>WebView-based ticket booking application</b> for intercity buses. The platform includes an <b>admin panel</b> for creating new routes and bus layouts, enabling a <b>graphical seat selection system</b>. Additionally, it features <b>company-specific admin account separation</b>, ensuring that each transportation provider manages its own data independently.</div> <div>My responsibilities included:</div> <div><div><div>Development of an intuitive and functional <b>client-facing interface</b> for ticket booking, and an <b>administrative dashboard</b> for managing routes and seating layouts. Ensured seamless user experience and efficient data handling within a WebView environment.</div><div>- Next js / React / Tailwind / Typescript/ git</div></div></div>	March 2024 - August 2024	Almaty	
	<div>Gasyr 140</div> <div>Frontend developer / project manager</div> <div><div></div>http://gasyr140.kz/</div> <div>Gasyr140 is an <b>online school</b> for preparing students for the <b>Unified National Test</b>. It includes <b>subscription management</b> for paid users, an <b>admission probability assessment</b> for various universities, a <b>leaderboard</b>, an <b>AI-powered virtual tutor</b> for additional support, and a <b>mock UNT exam</b>. The website is designed to <b>display video lessons, tests, and notes</b> uploaded by teachers.</div> <div>My responsibilities included:</div> <div><div><div>Platform creation and support. Daily calls, scheduling tasks, work on high-pressure and strict deadlines. Led the migration of the system from external vendors, to an internal company product. Integrating the new frontend with the acquired backend. Bug fixes and testing</div><div>- Next js / React / Tailwind / Typescript/ i18n/ git</div></div></div>	February 2024 - December 2024	Almaty	
	<div>Gasyr Foundation</div> <div>Frontend developer</div> <div><div></div>https://gasyrcrm.com/</div> <div>Gasyr Foundation is a <b>platform for preparing applicants</b> for admission to <b>foreign universities</b>. It features a <b>client section for training</b>, along with dedicated <b>dashboards for mentors, psychologists, and teachers</b>. The platform also includes <b>tools for content management, scheduling, and course creation</b>, ensuring a structured and efficient learning process.</div> <div>My responsibilities included:</div> <div><div><div>Fixing the frontend part of a monolithic project written by a backend developer. Optimization of UI/UX architecture. Development and implementation of new functionality in collaboration with the backend team.</div><div>- Django/ Tailwind/ git</div></div></div>	September 2024 - November 2024	Almaty	
	Education	<div>University of International Business</div> <div>Business Informatics - Information technology B057</div>	May 2024	Bachelor
	Landings	<div>KCMG</div> <div>Frontend developer</div> <div><div></div>https://kcmg.kz/</div> <div>Development of a multi-page multilanguage landing website. Quick layout in 2 days, connection to the backend.</div> <div>- Nextjs v15/ Tailwind/ i18n/ TypeScript</div>	December 2024 - December 2024	
<div>Artlunia</div> <div>Frontend developer</div> <div><div></div>https://artlunia-1.vercel.app/</div> <div>During the development of the project on <b>Astro</b>, a comprehensive performance optimization was carried out. The delayed loading of content in Astro (lazy loading) was used, only the elements visible to the user are loaded, which increased the speed of the site.</div>		October 2023 - November 2023
